# We must stay at home But we can still do our bit....

The Corona Virus or Covid-19 is one of the greatest disasters to ever befall human beings on Earth. It is not only a threat to human life, but may well wipe out whole economies before it is done.

	Confirmed	Recovered	Deaths
Worldwide	531,373	122,006	24,071
India	987	87	25

**We are fighting for our lives...**

If the figures seem to indicate that India has nothing to worry, we couldn't be more wrong. With 1380 million people and a virus which multiplies and infects exponentially, we simply cannot afford to let down our guard.

With the lockdown which is in effect, and the shortages of everything from testing kits to masks to ventilators to food for urban daily wagers to medicines, there is an unending list of requirements which will expand exponentially if we slip from Stage 2 to 3.

## **We all need to pitch in**

No Government in the world, including the United States, is really equipped to fight this battle all by itself. We the people can and must unite in this hour of crisis to help one another in whatever way we can.

*HEAD has kickstarted the process for donation of 2 Nos. ECG machines required by the 100 bedded Veer Savarkar Municipal Hospital in Mulund(E) one of the hospitals designated to receive Covid-19 patients.*

### **Partner with us and the people of India**

In the days ahead HEAD will be collating requirements and collaborating with others, to alleviate shortages & mitigate suffering to the maximum extent.

This will be administered entirely by the Trustees and not a penny of your donations will be spent for anything other than the purposes we have stated above.

### **Do send in your contributions to:**

“The Health, Education & Development Trust” through NEFT or RTGS
